Additional Resources:

Review "During my 15+ years of teaching, I have always encouraged my students to incorporate flash cards with their learning process. Many students have their hands full juggling school, work and home life. The fact that these flash cards are already made is a big time saver for many students." Mary Nichols, Heald College

"I think it's the best book on the market." "I use the CD-ROM for extra credit. I highly recommend its use. Students that use it usually score higher on exams. I find that students use it during downtimes and play the games and practice using exams. These are very useful!" David Stump-Fought, Heald College
