Description:

The most comprehensive physical therapy text available on the topic, **Orthotics & Prosthetics in Rehabilitation, 3rd Edition** is your one-stop resource for clinically relevant rehabilitation information. Evidence-based coverage offers essential guidelines on orthotic/prosthetic prescription,

pre- and post-intervention gait assessment and outcome measurement, and working with special populations.

- Comprehensive coverage addresses rehabilitation in a variety of environments, including **acute care, long-term care and home health care, and outpatient settings.**
 - Authoritative information from the *Guide to Physical Therapist Practice, 2nd Edition* is incorporated throughout.
 - **World Health Organization (WHO) International Classification of Function model** provides consistent language and an international standard to describe and measure health and disability from a biopsychosocial perspective.
 - **Case studies** present real-life scenarios that demonstrate how key concepts apply to clinical decision making and evidence-based practice.
 - **A visually appealing 2-color design and a wealth of tables and boxes** highlight vital information for quick reference and ease of use.
 - Updated photos and illustrations reflect current clinical practice.
 - **Updated chapter on Assessment of Gait** focuses on clinically useful outcome measures.
 - **Updated chapter on Motor Control and Motor Learning** incorporates new insights into neuroplasticity and functional recovery.
 - **NEW! Integrated chapter on Lower Extremity Orthoses** assists in clinical decision making about the best options for your patients.
 - **NEW! Chapter on Athletics after Amputation** explores advanced training and athletics, including running and athletic competition to enhance the quality of life for persons with amputation.
 - **NEW! Chapter on the High Risk Foot and Wound Healing** helps you recognize, treat, and manage wounds for the proper fit and management of the patient.
 - **NEW! Chapter on Advanced Prosthetic Rehabilitation** provides more thorough rehabilitation methods beyond the early care of persons learning to use their prostheses.
-
