Description:

Available to complement Corey's textbook, the Student Manual helps students experience group process techniques and gain maximum benefit from the textbook. The Student Manual includes suggested activities for the whole class and for small groups, ideas for supervised training groups, summary charts, self-inventories, study guides, comprehension checks and quizzes, group techniques, and examples of cases with open-ended alternatives for group counseling practice. New to the 9th Edition are mini-interviews with experts for each of the theories, who address these questions: (1)

What attracted you to this particular theoretical orientation? How does the theory fit for the person you are? (2) What are some key concepts (and techniques) of this theory that are most applicable to the practice of group counseling? (3) How does this theory have particular relevance for addressing diversity and social justice issues in group work?
