Description:

Review "At last, a serious and thoughtful book about this controversial subject. Skeptics and true believers will find a treasure trove of insightful and eye-opening information. This book is bound to set the gold standard for UFO research." -- Michio Kaku, Ph.D., author of *Physics of the Impossible*

and host of *Sci Fi Science* on the Science Channel

"I was astonished by the care and precision of Leslie Kean's research in this terrific book. Her analysis is carefully reasoned and to the point; her craftsmanship in organization and writing is superb." --Rudy Schild, Ph.D., Harvard-Smithsonian Center for Astrophysics

"Like me, Leslie Kean is an agnostic on the issue of UFOs. Her book is a fine piece of journalism -- not about beliefs, but about facts. Kean presents the most accurate, most credible reports on UFOs you will ever find. She has fought long and hard to discover the facts and let the chips fall where they may. She may not have the final smoking gun, but I smell the gunpowder." -- Miles O'Brien, former CNN space/science correspondent

"The fascinating firsthand accounts make this a thought-provoking book, even for those of us who don't know much about UFOs." --Neal Lane, Ph.D., Rice University, and former director of the White House Office of Science and Technology Policy

"In these pages we are confronted head-on by the UFO phenomenon as revealed firsthand by highly credible government officials and military aviation experts. Their credibility and integrity cannot be questioned, and their firsthand observations cannot be ignored. Leslie Kean provides a challenging analysis and she writes with penetrating depth and insight. The revelations in this book constitute a watershed event in lifting the taboo against rational discourse about this controversial subject." -- Harold E. Puthoff, Ph.D., director of the Institute for Advanced Studies at Austin

"In an area of study where there aren't many, this is a serious book. It is credible, clear, and compelling, without any far-fetched jumps in logic and assumption. . . . Leslie Kean not only makes the case for, but calls for, a whole new concrete and realistic perspective on UFOs that has more honesty and integrity than any other that I have read. This is a book for anyone with an open mind." --John L. Petersen, founder and president of the Arlington Institute

About the Author LESLIE KEAN is an investigative journalist who has been published in the *Boston Globe*, *Baltimore Sun*, *Atlanta Journal-Constitution*, *Providence Journal*, *Nation*, *International Herald Tribune*, *Globe and Mail*, and *Journal of Scientific Exploration*, among other publications. She is coauthor of *Burma's Revolution of the Spirit* and cofounder of the Coalition for Freedom of Information. She lives in New York.
