#### Description:

White Fang, a wolf born in a litter full of puppies, learned the rules of nature from his mother, Kiche. She taught him about meat, predators, and survival - but not about his greatest and least predictable adversary - man. When the cruel Indian Gray Beaver captures him, White Fang is separated from his mother and forced to fight other camp dogs to survive. But things get even worse when Gray Beaver sells him to the cowardly Beauty Smith, who trains White Fang to hate by destroying other dogs in his pen. As his memories of Kiche and the laws she taught him fade, White Fang becomes little more than a vicious animal, but still yearns for the freedom of his early life.
